# INTRODUCING THE DROP STEP

Power Pin has been in business for over 35 years, supplying our products to all the major OEM tractor plants. Known for our "Drop-Pin" hammerstrap and our Hit-N-Hitch on-road products, we are pleased to introduce the semi "Drop-Step." This product makes getting in and out of semi-trailers easy as they will fit any trailer, cube van or flat deck that has a 4" bumper. No more crawling into the trailer or jumping out, with the Drop-Step you're – stepping up and stepping out safely!

With the pivot point under the bumper and a roller at the end of the step, this unique design allows the Drop-Step to pivot back into the safety of the pocket when striking a dock or forklift.

### **EASILY INSTALLS IN MINUTES WITH 4 BOLTS**

- **Bumper requirement 12.37 inches wide on passenger side**
- **11.5 inches from top of bumper to bottom of the deck**
- **16.5 inches of space behind the bumper under the deck**
- **Grated step that provides a nonslip surface**
- **Plated surface provides a rust resistance coating**
- **Ultimate strength over 1200 lbs of down load**
