

PreSet Plus®

SmartHub™

Monitor the Health of Your Wheel End

For over 50 years, ConMet has used state-of-the-art testing equipment and procedures to create the best hub assemblies in the commercial vehicle industry. Today, that experience and test data is being applied in real world conditions with the development of new SmartHub technology.

The PreSet Plus SmartHub will enable drivers and fleet managers to monitor a variety of hub conditions:

- ▶ Hub Temperature
- ▶ Miles Traveled
- ▶ Lubricant Level
- ▶ Hub Load
- ▶ Hub Vibration
- ▶ Bolt Tension
- ▶ Spindle Nut Torque
- ▶ Speed
