FORTIS ULTRA

FORTIS is a better alternative for the heavy-duty aftermarket.

COMMERCIAL STARTING BATTERY
FOR COMMERCIAL TRUCKS

Fortis Ultra Batteries offer greater charge acceptance and extreme temperature operation, all while sustaining its original performance and protecting your investment.

Fortis Ultra Batteries use a vehicle's natural movement to continuously mix the electrolyte inside the battery to eliminate acid stratification, extending battery life.

Forget about premature performance loss and battery failures. **Fortis Ultra Batteries** combine the latest electrochemical advancements in battery technology, producing significant improvement in performance, reliability and battery life.

FEATURES AND BENEFITS:

- Eliminates acid stratification, the #1 cause of premature capacity loss battery failure
- Cost effective alternative to AGM battery
- Longer battery life in extreme temperatures
- High cold cranking and reserve capacity
- **2-Year Replacement Warranty**
