

TENDER KIT WITH 3-IN-ONE AIRPOWER LINE TEC-360® CLAMP

Tectran's 3-In-One AirPower Line TEC-360® clamp is now available on our dual spring tender kits. Simply lock in your 3-In-One AirPower Line and go! No tools or hardware are needed for easy installations and adjustments. The TEC-360® clamp also features a full 360° degree swivel to help prevent your connection system from binding and tangling. The swivel allows the connection system to rest in a natural position without putting stress on connection points at the tractor and trailer.

CLAMP. LOCK. GO.

Part No.	Stk. Code	Length
